

Full Service - Sales Ledger and Cashflow Management

Full Service offers you a revolving working capital facility combined with a professionally managed credit control regime that releases the funds tied up in your trade debts. It allows you to concentrate your efforts on developing your business in the knowledge that the day-to-day management of your sales ledger is carried out by our highly experienced and professional team using state-of-the-art payment collection techniques and systems.

The flexibility of Full Service means that the amount of cash you can borrow may increase as your sales increase - making it ideal for both growing and established businesses.

With Full Service you can:

- Release the value of funds tied up in outstanding invoices by converting trade debts into cash
- Concentrate on generating sales while we carry out your sales ledger management, using the latest payment collection software and a team of professional credit controllers
- Improve the speed at which debtors pay (debt turn) and reduce the amount you may have to borrow
- Access a secure automated online account management system (I2D online) 24 hours a day, 365 days a year
- Enjoy an efficient and effective source of funding at a competitive price

Who can use Full Service?

- Profitable, fast growing businesses
- Sole Traders, Partnerships and Limited Companies
- Businesses yet to develop a full sales ledger function

How does this work?

- You supply goods or services to your customers and issue invoices for payment
- You notify us of the details of your invoices on a regular basis
- We then release typically 85% of the value of the invoices with the balance available to you, less our charges, when your customers pay
- We maintain your sales ledger records and communicate with your customers, usually for payment, on your behalf
